

PRODUCT LAUNCHER

PRODUCT-TO-REVENUE READINESS

ESource AI Group

Executive Demo

ESource Product Launcher turns
product knowledge into sales readiness before
launch-day revenue is put at risk.

THE LAUNCH RISK YOU CANNOT SEE

The product may be ready. The market may be ready. The sales team may still be unproven.

>50%

of product launches fail to hit business targets.

[McKinsey](#)

READY?

Can sellers explain value—not just product features?

[VALUE STORY](#)

READY?

Can sellers defend price and handle pressure?

[BUYER PRESSURE](#)

READY?

Can managers see the gaps before customers do?

[COACHING](#)

Launch failure rarely announces itself in the boardroom.

It shows up in the sales conversation.

**The forecast is committed. The campaign is funded.
The sales team is still unproven.**

BEFORE LAUNCH DAY, PROVE THE TEAM IS READY

Most launch training proves completion. Revenue depends on performance under pressure.

**PRODUCT-TO-
REVENUE READINESS**

**REVENUE
RESULTS**

Product knowledge • Value story • Objection handling
Technical confidence • Competitive positioning • Manager coaching

**Completion is not readiness. Readiness is performance
under pressure.**

**Product Launcher makes readiness visible before customers
do.**
