THE AI EXECUTION GAP

AI tools are available.
Are they improving the business?

Low adoption
Unclear workflows
Limited execution capacity

SOLUTION

DIAGNOSE BEFORE PRESCRIBING

CrashTEST™
Is deeper investigation warranted?

CrashSCAN™
What is causing the gap?

CrashTEST™

THE FIRST DIAGNOSTIC

1. Complete the questionnaire

2. Review the execution-risk signal

3. Decide whether to look deeper

90-minute readout
About 2 weeks after questionnaire receipt

CrashSCAN™

DEEPER ANALYSIS WHEN WARRANTED

Listen to leaders and employees

Review workflows and procedures

Identify causes and next actions

The engagement can stop after analysis.

EXECUTION WHEN JUSTIFIED
