

Build an AI revenue practice. Without building AI products.

Join ESource as a sales channel partner with trusted offers, sales support, and delivery capability.

**You bring trusted relationships.
ESource brings the engine.**

AI

PARTNER OPPORTUNITY

A practical way to expand your
value and your revenue.

This program is built for trusted advisors with access.

You do not need to be an AI engineer. You need credibility, relationships, and a client problem worth solving.

NEW REVENUE

You already sell or advise around sales, learning, operations, products, or growth.

MORE CLIENT VALUE

You want to bring clients practical AI help—not another abstract AI conversation.

READY-MADE ENGINE

You want ESource products, methodology, proposals, and delivery support without building an AI practice alone.

REAL COMMUNITY

You want peers to collaborate with, learn from, and grow alongside.

A strong fit starts with access—not technical

expertise. If you're already in the room with decision-makers, ESource can help you open a higher-value conversation.

Clients are buying AI. They still need help creating value.

The partner opportunity is the gap between investment and execution.

THE CLIENT GAP

**Tools get purchased.
Adoption stalls.
Value never shows up.**

Clients need a practical path from AI capability to workforce adoption and business results.

YOUR ADVANTAGE

You already have the trust.

Your trust and business context open the door. ESource gives you a credible way to expand the conversation and solve a problem the client already feels.

Create new value without asking clients to start with another technology purchase.

One partner program. Two distinct ways to help clients.

Lead with the problem your client is already describing.

ESOURCE AI GROUP

When the client needs a product or sales team launch-ready.

- Product Launcher
- AI Teacher + Expert Assistant
- Role Play Engine + Digital Twins

AI EXECUTION PARTNERS

When the client needs AI adoption made executable.

- Crash Test / CrashScan
- AI Value Creation Roadmap
- Adoption Sprints + Scale

Choose the practice that matches the client problem. Each remains commercially distinct.

Choose how much you want to own.

Start light. Grow as your pipeline and confidence grow.

REFER

**Open the door
with a qualified
introduction.**

CO-SELL

**Join discovery,
demos, and
client
conversations.**

AUTHORIZED SALES

**Lead the client
sale with
ESource support.**

RESELL

**Sell an authorized
offer under agreed
written terms.**

Every role includes a clear handoff, sales support, and a defined next step.

Partner network

Collaborate on opportunities, share lessons, and build relationships with peers.

Gain the engine behind your next AI opportunity.

Use ESource to create a credible opportunity and move it forward.

GO-TO-MARKET TOOLS

Pitch decks, discovery questions, demos, proposals, and client-ready language.

DELIVERY CONFIDENCE

Bring in ESource delivery capability where you do not want to build it yourself.

JOINT SALES SUPPORT

Use ESource for discovery, demos, proposals, and escalation support.

COMMERCIAL CLARITY

Role, offer, economics, and responsibilities are documented before the client commitment.

The partner value is more than a referral.

It is a faster, clearer way to expand the practice your clients already trust.

Your first 30 days can start with the relationships you already have.

A simple path from partner fit to qualified client conversation.

1. CHOOSE YOUR ROLE

Decide how much of the opportunity you want to own.

3. SELECT THREE

Choose the three conversations most likely to move now.

2. MAP YOUR ACCESS

List 10 clients facing AI adoption, launch, or readiness problems.

4. OPEN THE DOOR

Run a joint discovery conversation with ESource.

Start with one client problem. Build from there.

Book a Partner Fit Session to choose the right ESource practice and plan your first conversation.
